Complete Visibility

Reveal(x) provides visibility across the entire enterprise, covering critical security needs and operational use cases in a single, simple platform across on-premises, cloud, and hybrid environments, so cross-functional teams can consolidate tools and maximize efficiency.

Real-Time Detection

Reveal(x) detects the most common, catastrophic threats in real-time, stopping ransomware in its tracks, and catching insider threats and low-and-slow attackers before damage is done, with rich context on every detection so any analyst can respond with confidence.

Guided Investigation

Reveal(x) lets every analyst be an army with guided investigation and rich context around every detection, accelerating response and resolution, and helping analysts learn quickly and add value rapidly in the most relevant context: your actual environment.
RISE ABOVE RANSOMWARE & MORE.

Reveal(x) detects the most common and increasingly catastrophic threats, such as ransomware, right out of the box using a combination of machine learning and rules-based detections to provide confident detections, no false positives, and rapid investigation and response options across the entire environment that any analyst can understand.

**Detect Threats**

- **Breach Detection & Response**: Detect all stages of the attack lifecycle and expedite forensics.
- **Insider Threat Detection**: Detect, contain, and document risky and malicious behavior.
- **Ransomware Defense**: Contain and minimize active attacks, recover data.

**Improve Posture**

- **SOC Productivity**: Prioritized detection, reduced false positives.
- **Red Team/Audit Findings**: Find or validate concerns and vulnerabilities.
- **Reduce Attack Surface**: Improve hygiene, audit encryption, and decommission risky assets.

Investigate Instantly
Get to root-cause in just a click or two.

See The Whole Story
Related detections show the progress of an attack from beginning to end.

Cross-reference popular security frameworks.

Understand what the detection means, and how to mitigate future instances.
EXTRAHOP REVEAL(X) BENEFITS FOR MIDSIZE ENTERPRISES

Get Value Instantly
Reveal(x) is fast and simple to deploy, and starts detecting threats right out of the box using advanced machine learning, threat intelligence, and precise, built-in rules.

Detect What Matters
Reveal(x) detects ransomware, cryptomining, and other costly, fast-acting threats immediately, as well as low-and-slow advanced threats that lurk for months.

Unify Security and Application Visibility
Reveal(x) deeply analyzes application traffic so you can detect threats and troubleshoot application performance in one place.

Understand Threats Fast
Reveal(x) includes guided investigations, mitigation steps, remediation suggestions, and MITRE, CIS, and NIST links for rich context and rapid response to every detection.

Get On-Demand Expertise
ExtraHop Spotlight Services provide targeted on-demand expert security guidance for investigating and responding to specific detections in your environment.

Upskill Your Analysts
With Reveal(x), every analyst is an army. Rich context, powerful workflows, and trusted detections mean even Tier 1 analysts can validate detections and respond with confidence.

ExtraHop Spotlight Services
ExtraHop Spotlight Services give our customers on-demand access to ExtraHop security experts to provide targeted guidance, education, and recommendations for how analysts can respond to specific detections in their own environment. This optional service can help security analysts respond more quickly, and level up their own knowledge and skills rapidly to provide more value, faster.

ExtraHop Professional Services
ExtraHop Professional Services provide expert guidance for our customers to deploy Reveal(x) and get the exact outcomes they're seeking as quickly and effectively as possible, focusing on the pillars of Operationalization, Risk Optimization, SOC Optimization, NPMD Optimization, and ultimately Business Transformation.
OUR CUSTOMERS
RISE ABOVE THE NOISE.

95% IMPROVEMENT IN TIME TO DETECT
77% IMPROVEMENT IN TIME TO RESOLVE
59% REDUCTION IN STAFF TO RESOLVE
25% MORE SECURITY THREATS SUCCESSFULLY IDENTIFIED

IDC

Fast, amazingly thorough... Reveal(x) is a product with which many security operations center (SOC) teams could hit the ground running.

ABOUT EXTRAHOP NETWORKS
ExtraHop provides cloud-native network detection and response for the hybrid enterprise. Our breakthrough approach uses cloud-scale machine learning to provide complete visibility, real-time detection, and intelligent response. We help the world’s leading enterprises rise above the noise of alerts, organizational silos, and runaway technology by detecting threats up to 95 percent faster and accelerating response by up to 60 percent. With ExtraHop, you have the perspective you need to protect and scale your business.
