

# Reveal(x)

## FOR AWS

## Cloud-Native Security for Hybrid Enterprises

### Complete Visibility, Real-Time Detection, and Intelligent Response

The modern enterprise is a complex web of workloads consisting of hardware, applications, and data spread across edge, core, and cloud deployments. Add in a growing remote workforce, and the security challenges only increase. Tools that rely on logs or agents can't provide Security Operations Centers (SOCs) with the visibility they need to mitigate risk that can derail cloud migration and business transformation initiatives.

Reveal(x) for AWS provides agentless network detection and response (NDR) capabilities that allow security teams to confidently secure their Amazon Web Services environment from the inside out. ExtraHop brings complete visibility, real-time detection, and intelligent response to AWS workloads, enabling SOCs to track rogue instances and eliminate risks created by misconfigurations, insecure APIs, and unauthorized access.

## Reveal(x) Security Solutions for AWS

The Reveal(x) platform is available in two deployment models for cloud-native NDR in AWS environments—SaaS-based Reveal(x) 360 or self-managed Reveal(x) AMI for AWS. Reveal(x) 360 provides unified security across on-premises and cloud environments, 360-degree visibility and situational intelligence without friction, and immediate value with a low management burden. Reveal(x) AMI for AWS sensors offer machine learning-powered analysis as well as threat detection but do not leverage ExtraHop's cloud-hosted record store or control plane.

	Reveal(x) 360	Reveal(x) AMI FOR AWS
SaaS-based deployment	✓	
Self-managed sensor		✓
On-demand sensors billed hourly	✓	
Cloud-scale ML	✓	✓
ExtraHop-managed record warehouse	✓	
Control plane for unified visibility (hybrid and multicloud)	✓	
Amazon VPC Traffic Mirroring integration	✓	✓
Continuous PCAP option	✓	

SENSOR DETAILS		Throughput	Devices	Record Capacity	Packetstore
360 SaaS-based	Extra Small	1Gbps	750	20GB/day	-
	Small	5Gbps	9,000	100GB/day	-
	Medium	10Gbps	18,000	200GB/day	-
	Ultra Extra Small	1Gbps	750	20GB/day	4TB
	Ultra Small	5Gbps	9,000	100GB/day	12TB
AMI FOR AWS	EDA 1100v	1Gbps	750	20GB/day	-
	EDA 6100v	10Gbps	18,000	200GB/day	-
	EDA 8200v	25Gbps	35,000	500GB/day	-

## ABOUT EXTRAHOP NETWORKS

ExtraHop provides cloud-native network detection and response for the hybrid enterprise. Whether you're investigating threats, ensuring the availability of critical applications, or securing your cloud investment, ExtraHop's breakthrough approach helps you rise above the noise so you can protect and accelerate your business. Learn more at [www.extrahop.com](http://www.extrahop.com).
