ExtraHop

SOLUTIONS ARCHITECTURE

Accelerate your deployment while incorporating best practices.

The Advanced offering provides a more bespoke implementation for larger enterprise organizations that are looking to use ExtraHop across multiple teams. This offering ensures the ExtraHop platform fits your business and includes an on-site Solutions Architect for the duration of the engagement.

BENEFITS

‣ Build a roadmap for long-term success, with ExtraHop by your side

‣ Provides immediate value from your investment—targeted solutions created for the use cases you need most

‣ Integrate with your existing toolsets

‣ Deploy fast, the right way

‣ ExtraHop Trusted Advisor: On-site expertise from an ExtraHop Solutions Architect

‣ Ensure high-quality data feeds for your long-term success

‣ Custom dashboards to show you and your teams exactly what you want, when you want it

‣ Project scheduling and tasks handled by a Project Manager

DEPLOY

‣ Data feed review prior to on-site implementation

‣ Multi-site architecture for up to three (3) ExtraHop Discover Appliances

‣ Discuss application and network flows, and develop ExtraHop deployment architecture strategy

‣ Develop capture strategy for prioritized data collection focused on critical use cases

IMPLEMENT

‣ Implement baseline configuration for ExtraHop appliances

‣ Embed a Solutions Architect into your team to protect your investment

‣ Provide best practices based on industry and use cases

CUSTOMIZE

‣ Create dashboards and other custom visualization aligned with business needs

‣ Create up to eight (8) application dashboard templates

‣ Create application containers for up to twelve (12) standard 3-tier applications

‣ Up to two (4) Open Data Stream (ODS) integrations

‣ Up to four (4) API integrations

‣ Create an automated application grouping solution in order to build out dashboards for hundreds of applications

‣ Up to twelve (12) ExtraHop Explore Appliance customizations

‣ Create up to twenty (20) alerts or reports

KNOWLEDGE TRANSFER

‣ Hands-on training

‣ Shoulder-to-shoulder customization experience
